

Earth

Upholstered Screen

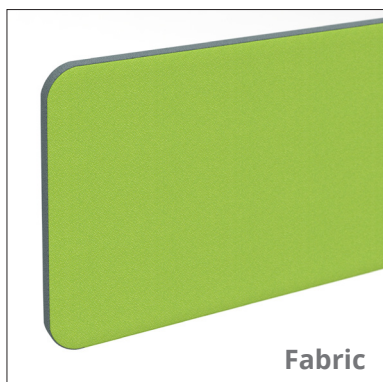

PANEL

Overview

The open plan office has become the norm, the most peaceful & productive place in any office is behind a screen. When life is manic and you need time to your own thoughts, Earth can provide that quiet place you need. With a full range of screens, desk mounted or floor standing, Earth can make the open plan office into a personal space. Balancing openness with privacy, Earth screens provide people with an easy and attractive way to arrange their individual work areas within a larger, collaborative work environment.
